

Abhishek Singh

Full Stack JavaScript Developer

as.abhishek.singh.21.09@gmail.com | +91-9535502966 | [Linkedin](#) | Bengaluru, Karnataka

SUMMARY

Results-driven Full Stack JavaScript Developer with 2+ years of experience architecting scalable web applications and automation-driven workflows. Proficient in TypeScript, Node.js, React, and Next.js with a strong foundation in asynchronous programming, REST APIs, and system integration. Experienced in delivering end-to-end solutions across complex enterprise environments — from database schema design and API development to front-end optimization and cloud deployment. Eager to apply these skills in building reliable, AI-powered automation agents for enterprise customers.

SKILLS

Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Python
Backend	Node.js, Nest.js, Express.js, RESTful APIs, Fast Api, MVC & Microservices architecture, Sequelize ORM, Stripe, Razorpay, Swagger, Prisma, Websockets
Frontend	React.js, Next.js, Redux, Zustand, Expo, Tailwind CSS, MUI, Shadcn/ui, Chart.js
Databases	PostgreSQL (Indexing), MongoDB, Firestore, IndexedDB
AI & Tools	Claude AI (Anthropic), Prompt Engineering, AI Integration, LLM, Copilot, Git/GitHub, VS Code, Cursor, Xcode, Android Studio
Cloud & DevOps	AWS (S3, EC2), Google Cloud Platform, Heroku, CI/CD pipelines, Docker, Jenkins

WORK EXPERIENCE

Einsteinforce Innovations Pvt Ltd | *Consultant - Full Stack Developer*

April 2025 – April 2026

- Architected scalable TypeScript/Node.js microservices with 150+ RESTful APIs using Express.js, reducing average API response time by 30% through async optimization and efficient HTTP handling.
- Engineered robust authentication and authorization systems with distinct permission levels for multiple user roles, eliminating unauthorized access incidents across the platform.
- Built an intuitive admin dashboard supporting video, PDF, and image content pipelines, cutting content upload and management time by 40%.
- Developed responsive React and Next.js front-end interfaces with Tailwind CSS, achieving Lighthouse performance scores of 85+.
- Integrated Razorpay and Stripe payment gateways for secure transactions, successfully onboarding 100–200 users within the first release cycle.
- Implemented WebSocket-based real-time communication for live data sync with sub-second latency.
- Familiar with Docker containerization; exposure to Kubernetes orchestration concepts.

Aekot Consulting and Technologies Pvt Ltd | *Associate Consultant*

April 2024 - March 2025

- Delivered 3+ end-to-end projects with 100% on-time deployment and zero critical production failures, independently owning requirements through production.
- Improved overall application performance by 25% through architecture-level improvements and async workflow optimizations.
- Provided technical leadership to 2–3 junior developers via structured code reviews and mentorship, reducing team bug count by 30%.
- Built a comprehensive reusable component library and design system using React and Tailwind CSS, cutting new feature development time by 40%.
- Implemented Redux-based state management for complex applications, reducing state-related bugs by 35% and improving data consistency across workflows.
- Deployed full applications on Heroku, Vercel, and AWS with CI/CD pipelines — reducing deployment time by 50% and ensuring seamless continuous delivery.

KEY PROJECTS

E-Learning Web Application

- ▶ Designed PostgreSQL schema and engineered 120+ RESTful APIs in Node.js/Express with async handling, achieving 30% faster server response times.
- ▶ Implemented secure role-based authentication with admin dashboard for course content management across multiple media formats.
- ▶ Integrated Razorpay payment gateway and AWS media storage, achieving 99.9% uptime post-launch with CI/CD on Heroku.

AI Parenting Mobile App

- ▶ Integrated Claude AI (**Anthropic**) for context-aware parenting advice with personalized recommendations based on child's age and parent's emotional state
- ▶ Built AI-powered nudge system triggered by user feelings and chat interactions with rate limiting (5/day), plus personalized tip generation based on 6 emotional states (anxious, stressed, tired, etc.).
- ▶ Engineered 50+ RESTful APIs, PostgreSQL schema with 15+ tables (Prisma ORM), secure JWT auth with token rotation, and responsive React Native frontend with 20+ screens and offline storage.

Browser-Based Design Editor

- ▶ Built a complex browser-based editor supporting 10+ element types (shapes, rich text, images, QR codes) with drag-and-drop canvas interactions, layering, and formatting — achieving 60fps smooth editing.
- ▶ Optimized state handling and rendering performance, reducing UI re-render overhead by 40% — directly applicable to automation UI workflows.
- ▶ Designed secure media upload pipelines with Google Cloud Platform asset storage.

EV Charging Station Locator Mobile App

- ▶ Built a cross-platform mobile app using Flutter and Firebase with Google Maps integration — locating nearby chargers in under 3 seconds.
- ▶ Implemented real-time charging status monitoring via external APIs with under 5-second refresh latency, demonstrating experience with live data integration workflows.
- ▶ Integrated Stripe, Google Pay, and Apple Pay across 3 major payment platforms.

Multiple Company Websites

- ▶ Architected and delivered 4+ responsive company websites using React's component-based structure, achieving 30% reduction in page load times.
- ▶ Leveraged Vite for rapid development with HMR, reducing average build time by 40%.
- ▶ Implemented dark/light mode, accessibility best practices, and code splitting — raising Lighthouse accessibility scores to 85+.

EDUCATION

B.E. Computer Science Engineering

HKBK College of Engineering, Bengaluru, Karnataka

CERTIFICATIONS

- ▶ Salesforce Certified Agentforce Specialist
- ▶ JavaScript Ultimate Guide
- ▶ The Complete ReactJS Course – Basics to Advanced
- ▶ Frontend Developer (React)
